

SCANDINAVIAN TERRA INCOGNITA

A unique route that no other cruise line offers. The spirit of discovery hangs in the clear air as you enter the ice-cold north of the Baltic Sea. The winter coastal landscape reveals itself in its quietest and at the same time most impressive form: glistening ice, snow-covered forests and a vast expanse that opens up the view and makes you forget everyday life. Here begins your journey into a world where nature sets the tone – rugged, clear and full of beauty.

Every day is filled with intense experiences: whether it's guided snowshoe hikes*, dog sled rides* or a visit to an ice hotel* – the outdoor activities are as diverse as the landscape itself. And when the sky opens up in the evening and the Northern Lights dance above you, a day of travel becomes a moment for eternity.

This route is a real insider tip for winter – surprisingly quiet, moving and full of Scandinavian magic. Ideal for anyone who is looking for something special and wants to experience the north in its most authentic form.
